How do I feel about it now?

Did it have an impact on the way I act or think?

How did I feel while it was happening?

How did I feel afterward?

Did it happen to me again? Do I think it could happen again?

How would I feel if it happened to my children?

Were there consequences for anyone?

What advice would I give to someone in a similar situation?

What advice would I have liked to receive?

Have I talked about it with
other people?

How did I react?
What did I do?

Why do I think it happened?
